## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-9, 11, 13-15, 38-42, 44-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Campbell (US 746,455).

Campbell discloses a tool having a body A', a tissue grasping element appended to the body and having first and second opposed claws B', first and second actuating members B<sup>2</sup> mated to the body, a biasing element C extending between the first and second actuating members and a flexible member F secured to the body at the pivot point B<sup>3</sup> (Figure 1-3, col. 1 and col. 2).

Regarding claims 7, 8, 38 and 39, Campbell discloses a collar or "removable applicator sleeve" E' that selectively engages the first and second actuating members.

The initial statement of intended use and all other functional implications related thereto have been considered but do not appear to impose any patentably distinguishing structure over that disclosed by Campbell.

### ***Allowable Subject Matter***

Claims 12 and 43 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 37 is allowed.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
